OPZIONI/OPTIONS

VERNICIATO/LACQUERED

La vernice che utilizziamo è all'acqua, a basse emissioni di sostanze organiche volatili (VOC). Essa crea una patina superficiale sul legno che ha la funzione di ricreare particolari effetti di colore, proteggendo la superficie. We use water paint with low emission of volatile organic compounds (VOC). The paint creates a patina on the wood that results in special color effects and protects the surface.
